

453rd BG Memorial Association

02 / MAY / 2014

On 30 September 2012 the "Veterans Association" closed up their side of this legacy, this group represented the 453rd BG and all current and past members that were originally the part that truly was "The Greatest Generation".

Their numbers have been steadily dropping over the years and it was understandably a hard decision to make, these great men and women provided a foundation for the 453rd BG to continue through the years of "Peace" that followed 1945.

When they're doors officially closed a group of 2nd generation 453rd members decided that the 453rd must be maintained and their story must continue to be told. As a result the "453rd BG Memorial Association" was formed to continue this legacy and stay true to honoring these great men and women for as long as there is an interest to the families and loved ones that follow.

To date there has been much research conducted and a lot of information uncovered that has answered a lot of questions, we continue to dig up more questions on each research project and as a result we are looking for help from any family members that feel so inclined to share their loved ones stories with our group.

Our sole purpose is to keep this torch burning and to better understand their stories and to preserve this legacy. My late uncle flew with the 735th BS; I have learned more about what he did since his passing than I ever knew before?

I'm sure that I'm not the only one in this place, these men and women gave so much for what we share today in our freedom to live within this great country. Without the efforts that they put forth 70 years ago we may have never had what we consider to be our home safe and secure.

This site will continue to grow over time, it will continue to have content added, and it certainly will continue to tell their story. If you can and are willing to be a part of that, please free to contact myself directly at the following e-mail address.

Thank you, together the 453rd BG will live on for all to learn from.

From the Desk of:
